The Pennsylvania Legislature has passed a baking powder bill which is said to be identically the same as the bill passed by the Missouri Legislature, which caused so much bribery talk. But perhaps the Pennsylvania solons were too cute to go around exhibiting $1,000 bills.

Some men are strangely made up. In a fight a few nights ago over a woman, at Greensboro, Pa., one man shot and killed another, then ran about a mile to his home to kiss a blind child which he had adopted, and had to jump from a second story window to escape pursuers. He got his kiss from his 13-year old blind girl, and his pursuers came very near getting him.

A short while ago a Boston preacher told the women of his congregation that no woman with a sea gull or a song bird on her hat could enter heaven, and now a Louisville preacher tells them that a refined woman would as soon think of wearing a human scalp on her head as a bird's wing, and yet every one of them was wearing a human scalp.

Capt. Marmaduke, of Missouri, who went to South America to fight with some revolutionists, renounced his American citizenship as a matter of convenience. His fellows got laid out, and now he isn't a citizen of any country. This will give him a chance to learn how it feels to be a citizen of the world, and then if he doesn't like it he can go back to Missouri and become naturalized.

THE FEDERAL COURT.

Usual Grind Yesterday of the Mill That Punishes Illicit "Retailers."

A CASE IN ADMIRALTY.

Demurrage Controversy of Schooner Jos. W. Brooks Will Be Heard To-day. Witness Sent to Jail for Contempt—Robeson Matters.

Yesterday was another uninteresting day in the United States' Court. Cases, chiefly for "retailing" in Robeson county, were heard and at 6 o'clock a recess was taken until 9:15 o'clock this morning when a case in admiralty will be tried. It is the one in which Capt. N. A. Davidson, master of the schooner *Jos. W. Brooks*, libelled the cargo of his vessel for demurrage charges amounting to about $72. The cargo was consigned to the Armour Fertilizer Works and the case is being resisted by them through Hon. Jno. D. Bellamy, their counsel. The vessel owners are represented by Col. Thos. Evans. But very little time will be consumed in the disposition of the controversy as the amount involved is small.

Yesterday's proceedings of the court were as follows:

Ballie Lockamy, Robeson; retailing; pleaded guilty; judgment suspended and defendant discharged.

Lewis Smith, Robeson; retailing; pleaded guilty; judgment suspended and defendant discharged.

Zachariah Locklear, Robeson; same as above.

Asbury Oxendine, Robeson, retailing; pleaded guilty and sentenced to one year and one month in the penitentiary and to pay fine of $100 and cost.

Phillis Hubbard, Cumberland; retailing; 30 days in jail; $100 fine and cost.

Edgar Ballard, Robeson, retailing; pleaded guilty; judgment suspended and defendant discharged.

J. Gurley Bundy, Robeson; retailing; verdict not guilty.

Wright Smith, Cumberland; retailing; not guilty.

Daniel McMillan, Robeson; retailing; continued until June term.

Daniel McMillan, Robeson; case continued for bill.

Neill Mitchell, Robeson; sci fa., defaulting witness; sentenced to 20 days in New Hanover county jail for contempt and disobeying order of court.

Rose Burton, Robeson; (two cases); retailing; concurrent judgment; 30 days in jail; $100 fine and cost; defendant to be discharged at end of 30 days.

W. H. Shorter, Robeson; retailing; verdict not guilty.

Alex. Dixon, Cumberland; retailing; 30 days in jail; $100 fine and cost.

Sion Wilkens, Robeson, retailing; pleaded guilty; judgment suspended and defendant discharged.

Chas. W. Cain, Bladen county, illicit distilling; judgment 60 days in jail, $100 fine and costs.

It was ordered that the case against H. C. Dillard, of Columbus county, charged with sending obscene letter through the mails, be transferred to Raleigh for trial.

The case of M. E. Coleman, of Columbus county, charged with violation of postoffice regulations, was continued to the June term at Wilmington.

Rufus Register was summoned as a tales juror for the term.

H. T. Williams, Esq., of Kenansville, was sworn and admitted to practice in the courts.

True bills for retailing were returned against the following: Jno. H. Carter, Ed. Burns, Elias Rising. For distilling: E. G. Watts, Frank Ray, Chancey Wilson and Enoch Wilson. Not a true bill was returned upon indictments against Alex. Robinson, for distilling, and T. A. Hall and Hiram Horn, for retailing. The grand jury returned true bills against H. C. Dillard and M. E. Coleman, charged with postoffice violations.

CHAPEL OF THE GOOD SHEPHERD.

Social Evening in the Hall of the Church Last Night—Exercises.

A delightful entertainment was given last evening in the hall of the Chapel of the Good Shepherd, Sixth and Queen streets. The young people of the church gathered in large number and a programme replete with features of extraordinary merit was observed.

Mrs. Harris delighted her auditors with three charming selections, "Cavalry," "A Dream," and "A Valentine Song." Miss Claire Swann presided very gracefully at the piano. Maj. Wm. F. Robertson entertained in his own inimitable way with the readings and recitations of "The Life Boat," "Uncle Dan'l and the Steamboat" and several other humorous and dramatic selections. Another prime feature was a tenor duet by Messrs. Kelly W. Jewell and James H. Burruss.

Misses Susie and Carrie Price were in general charge of the entertainment and contributed no little to the splendid success it was. Rev. R. W. Hogue, rector of St. James' parish, was present and made a pleasing little address. Upon conclusion of the exercises dainty refreshments were served to the delight of all.

EPWORTH LEAGUE.

Close of Wilmington District Conference With Splendid Address Last Night.

THE OFFICERS ELECTED.

Delightful Trolley Ride to Beach, Visitors Being Guests of Mayor Springer. Rev. G. T. Adams, of Raleigh, Speaker at Night Session.

Organization by the election of officers yesterday morning, a delightful trolley party to the beach in the afternoon, a splendid address last night by Rev. G. T. Adams, of Raleigh, with other interesting exercises during the day, completed the first annual meeting of the Wilmington District Epworth League Conference, which has been in session at Grace M. E. church, this city, since Tuesday night. The meeting has been a great success; the Epworth League spirit in the district has been greatly revived and the promoters of the Conference, chief of whom was Rev. Euclid McWhorter, the energetic and versatile editor of the *Epworth Wheel*, of Southport, are to be congratulated upon the great good that will necessarily result from their efforts.

The morning session yesterday opened with devotional exercises by Mr. C. E. Vale, of this city. Organization of the Conference was then effected by the election of the following officers:

President—Rev. Euclid McWhorter, of Southport.

First Vice President—Mr. C. E. Vale, of Wilmington.

Second Vice President—Rev. W. R. Royall, of Town Creek.

Third Vice President—Mrs. R. B. John, of Wilmington.

Secretary and Treasurer—Miss Carrie Dosher, of Southport.

The officers above were chosen to constitute the Executive Committee.

Following the organization E. D. Guthrie, Esq., delivered a magnificent address upon "The League Idea," and Rev. W. R. Royall, of Town Creek, explained minutely the best methods of organizing a League. These very interesting discourses were followed by five-minute papers on departmental work. (a) devotional department; (b) charity and help; (c) literary circle; (d) social. Among those who participated in the discussion were Rev. A. S. Barnes, of Whiteville; Rev. G. T. Simmons, of Elizabethtown; Rev. J. N. Cole and Rev. R. B. John, of Wilmington. Miss Allen, of Whiteville, and Mr. Coleman, of Wilmington, also discussed the social and literary features of the League in a most interesting manner.

In the afternoon 65 visiting delegates and a number of Wilmington people were guests of Mayor W. E. Springer for a delightful trolley ride to the beach on two handsome suburban cars of the C. R., L. & P. Co. The visitors enjoyed a breath of Old Ocean and returned to the city greatly refreshed and entertained.

At the night session the devotional exercises were conducted by the Rev. R. B. John and Rev. G. T. Simmons.

The prime feature of the entire conference sessions then followed—a fine address upon the "Possibilities of the Epworth League." Rev. Mr. Adams emphasized the need for the development of the unused life of the young people and showed the practical operation of League life in establishing the young people both in the doctrine and polity of the church. It was a great effort and was very enthusiastically received by the conference.

Rev. Mr. Adams arrived yesterday afternoon and is the guest of Rev. J. N. Cole.

Before adjournment last night the place of next meeting was left with the Executive Committee, composed of the officers of the Conference.

As To Crosses of Honor.

Mrs. William M. Parsley, of Cape Fear Chapter, Daughters of the Confederacy, is in receipt of a letter from Mrs. S. E. Gabbett, of Atlanta, Ga., custodian of the Crosses of Honor bestowed upon veterans by the national organization of the U. D. C., stating that she regrets to say that applications forwarded for crosses for three veterans, not members of camps, are not in due form inasmuch as the certificates are not signed by two officers of a camp, as required. Mrs. Gabbett explained that the mistake probably occurred by reason of a defect in the printed papers and she directs that the certificates in the future must have the endorsement of two officers of a camp. The officers should be of the nearest camp to a veteran, desiring a cross.

Chamber of Commerce Election.

The annual election of officers of the Wilmington Chamber of Commerce will take place to-day. The polls will be open from noon to 3 o'clock in the afternoon. The officers to be elected are a president, vice president and five members of the executive committee. The poll-holders and inspectors are Messrs. J. A. Taylor, Jos. H. Watters and Jno. Frank. Following the election, the regular monthly meeting of the Chamber will be held at 3:30 P. M. The result of the election will be announced at the meeting.

Typographical Union Officers.

Wilmington Typographical Union, No. 556, at its regular meeting Tuesday evening elected officers as follows: President, W. S. Royster; Vice President, J. T. Parham; Recording and Financial Secretary, H. D. Stanland; Treasurer, J. H. Hewlett; Sergeant-at-arms, H. L. Hewett.

50 YEARS OF BUSINESS LIFE.

Original 60 Members of Chamber of Commerce Which Will Elect Its Semi-Centennial Officers To-day.

To-day's annual meeting of the Wilmington Chamber of Commerce will mark the semi-centennial of its establishment and fifty years' usefulness in the business community here. Never before has the organization been in a more flourishing condition than now. Its members are wide-awake, progressive and are taking great pride in the life and welfare of their enterprising commercial brotherhood.

Fifty years ago on July 1st, the membership of the Chamber was composed of the following, the names of which will be read with much interest: P. K. Dickinson & Co., DeRosset & Brown, Rankin & Martin, Anderson & Savage, Wm. H. McKoy, J. & S. MacRae & Co., William Neff & Sons, Kidder & Martin, Russell & Bro., J. Hathaway & Sons, Wm. A. Gwyer, J. H. Chadbourn & Co., Jno. C. Latta, W. H. McRary, Edward J. Lutterloh, Z. Latimer, Wm. C. Howard, Pierce & Dudley, Parsley, MacRae & Co., Freeman & Houston, T. J. Cotton, Charles D. Ellis, George Harriss, J. H. Fianner, Jos. J. Lippitt, H. Nutt, Wessel & Eilers, Jos. B. Blossom, Adams, Brother & Co, T. C. Worth, Neilson & Keith, Geo. W. Davis, Miles Costin, A. H. VanBokkelen, John Dawson, Polley & Hart, James Cassiday, Thos. W. Brown, C. DuPre, Alex. MacRae, Robert W. Brown and J. M. Robinson.

There are now only one or two, if any, of the above original members of the Chamber living, but many of their descendants are here and are still members of the body which has accomplished wonders for the city. As early as March, 1879, only 31 of the original members were living and, after 36 years, on Feb. 6th, 1889, only seven were then living.

Charlotte Negro Detective.

Vann C. Griffin, the "celebrated" colored detective of Charlotte who is here attending Federal Court as a witness in a "retailing" case from Laurinburg, went out on a little diversion last night and "spotted" Robert Johnson, a negro convict who escaped about four years ago from the Mecklenburg county chain gang. Griffin says the negro was serving a term of five years but he doesn't remember the charge. Johnson has escaped three times before and Griffin naturally feels highly elated that he should catch him again after four years. He will telegraph Sheriff Wallace to-day to come for the prisoner. Officers H. P. Merritt and J. D. McClammy made the arrest for Griffin.

Negro Shot in the Arm.

Failing to agree upon a division of some change left over from a joint purchase of some liquor at a Dross Neck bar-room early yesterday afternoon, Frank James, a young colored man, was fired upon by one of the disputants in the controversy and had to be brought down to the City Hall by Policeman C. G. Jones to have a 32-ball extricated from his anatomy. The ball took effect in James' right arm and plowed around considerably and very near the artery, but Dr. C. T. Harper managed to locate the billet of lead and take it from the negro's limb. James' assailant has not been captured.

ANXIETY IS RELIEVED

Board of Aldermen, Duly Qualified, Elected Departmental Officers Last Night.

MADE ONLY TWO CHANGES.

Mayor Springer Formally Inducted Into Office—Two Hours Caucus Last Night. Board of Canvassers in Session at Noon Yesterday—Notes.

Having been formally inducted into office upon a declaration yesterday at noon of the vote in Tuesday's election by the Board of Canvassers, consisting of the registrars from the five wards of the city; having organized at that time; having met again and caucused two hours earlier in the evening, the newly-elected Board of Aldermen of the city came out in open meeting last night and unanimously elected in their order the following departmental officers:

City Clerk and Treasurer—B. F. King.

Assistant City Clerk and Treasurer—C. H. White.

Chief of Police—Jno. J. Furlong.

Captain of Police—N. J. Williams.

First Sergeant—George Smith.

Second Sergeant—G. H. Ward.

Third Sergeant—C. W. Woolard.

Fourth Sergeant—C. S. Burnett.

Chief of Fire Department—Charles Schnibben.

Assistant Chief—W. P. Monroe.

Clerk of Front Street Market—Thos. H. Johnson.

Clerk of Fourth Street Market—Josiah Cumber.

City Attorney—Wm. J. Bellamy.

Superintendent of Streets and Civil Engineer—Walter G. MacRae.

Superintendent of Fire Alarm—Jno. T. Yates.

City Detective and Chief Quarantine Officer—Robert Green.

Superintendent of Health—Dr. Chas. T. Harper

Cattle Weigher—S. L. Yopp.

Janitor Front Street Market—March Walker.

Mayor Pro Tem—W. H. Yopp.

The caucus, immediately preceding the election of the above officers, was held behind closed doors in the Mayor's office and the halls and other apartments of the building were crowded with expectant voters and aspirants for the several places to be distributed. Mayor Springer and every member of the new Board were in attendance upon the caucus. It lasted from 8 to 10 o'clock and a cheer went up as the Board came out in open session and filed inside the railing in the main court room. Mayor Springer presided and every member of the Board was present, viz: Messrs. Z. E. Murrell and J. A. Karr, first ward; Jno. H. Sweeney and P. Q. Moore, second ward; W. H. Yopp and S. Behrends, third ward; F. E. Hashagen and Walter E. Yopp, fourth ward, and M. G. Tiencken and Walter P. Gafford, fifth ward.

The real tug of war in the caucus was over the election of City Clerk and Treasurer and Assistant. Messrs. W. W. Hodges and Jno. W. Gafford, respectively, were the opposition to the successful ticket and reports are that, although it did not come to a tie vote, there was a great struggle. Members of the Board, however, displayed no look of dissatisfaction when the final result had been determined and they took their seats for the final consummation of a series of acts that had been the bone of contention in the political arena of the city for several weeks.

Mayor Springer called the meeting to order, and Mr. Hashagen, who had acted as clerk of the caucus, read the nominations in the order given above. Every vote was unanimous, the seconds to the nominations having been as follows: King, by Yopp; White, by Sweeney and Behrends; Furlong by Sweeney; Williams, by Yopp, W. E.; Schnibben, by Tiencken; Monroe, by Moore; Johnson and Cumber, by Tiencken; Bellamy, by Yopp, W. E.; MacRae, by Behrends, who said Capt. MacRae would be expected and summoned by every citizen of Wilmington to accept; Yates, by Gafford; Green by Sweeney; Harper, by Yopp, W. H.; S. L. Yopp, by Gafford; Walker, by Sweeney; W. H. Yopp, by Karr and Behrends.

All the officers elected hold their present positions except Capt. Walter MacRae, who succeeds Mr. J. M. Woolard as superintendent of streets and combines with that the office of civil engineer for the city, and Mr. S. L. Yopp as cattle weigher, who succeeds Mr. Geo. T. Bland, who made no effort for re-election. The officers chosen are eminently fitted by experience for their several places and the Board is to be congratulated, for the most part, upon the adoption of its "civil service" policy.

The election of first, second, third and fourth sergeants, has no especial significance as far as the numbers go. Sergeant Ward will remain as clerk of the police court according to the statemen of an alderman last night and with the other sergeants, will remain equal in rank.

The adjournment last night was until Monday at 8 P. M., when firemen, policemen and other subordinate positions will be filled.

The Session Yesterday Morning.

All the aldermen were present in the Mayor's office with Mayor Springer yesterday noon but they could not qualify until forty minutes later, the Board of Canvassers being engaged in canvassing the vote in the main court room. At 12:40 the result of the canvass was brought in and the vote declared exactly as it appeared in these columns yesterday morning. Each member of the Board then came forward, was qualified by City Clerk and Treasurer King, acting in his capacity as a magistrate, and each signed the obligation on the record book as required by law. Mayor pro tem. W. H. Yopp then called the meeting to order and declared it duly organized for business. Upon motion of Mr. Sweeney it was decided to go into the election of a mayor. Mr. Sweeney nominated Mr. Springer, and he was elected unanimously viva voce. The newly-elected Mayor was sworn in by Mr. D. C. Love, a magistrate, and Messrs. Sweeney and Hashagen were appointed a committee to escort Mr. Springer to the chair.

Mayor Springer having been escorted to the chair by Messrs. Sweeney and Hashagen, addressed the Board in a very happy vein. He thanked them as servants of the people for having reposed the confidence in him and said it would be his effort, object and determination to do the very best he could for the city's welfare; that he had no personal interest in being mayor and that he would declare his purpose, first, last and all the time to serve the people. He wanted it understood that he considered himself the servant of the people and desired their views and co-operation in every way.

Mayor Springer also invited the support and co-operation of the Board of Aldermen as well as the citizens at large. He said he was fully confident that if any measure of success is reached, it must be through unity, harmony and co-operation. He wanted to be in the confidence of the Board at all times and he assured members of the Board that it would always be his policy to take its members in his full confidence and consideration. He hoped there would be no strife—no dissension. The speaker again thanked members of the Board for the honor conferred upon him and took his seat amid applause.

Then the Board adjourned until 8 at night for the stated purpose of entering into executive session.

WILMINGTON, N. C.

THURSDAY MORNING, MAY 7.

A COMPOSITE PACE

The tide of immigration to this country which has been steadily flowing in for 80 years or more, has continued to increase in volume from year to year, varying of course, the influx being greater some years than others. With the exception of one year, 1882, the influx this year will be greater than any year in the history of the country. While the flow continues, and is increasing, the character of it seems to be changing, and not in a way that is altogether satisfactory. Mixture of races or nationalities is good, but there may be mixtures which do not blend well and are therefore not good.

This is a subject which has already engaged the attention of the ethonolgist and other thinkers, who are asking the question, what will the result be, and what manner of people will the Americans of the future, the progeny of this multitudinous blending be? Will the coming American be superior or inferior to the parent stocks? Will he inherit the strength of the stronger or the weakness of the weaker? In view of these questions the following from an editorial in the New York *Sun*, suggested by some papers by the President of the Stanford University, on "The Blood of the Nation," is interesting. It says:

The mixture of races is now proceeding in the United States on a scale of magnitude and variety of which the previous history of the world affords no parallel. At this particular time, too, new additions to the elements for the future composite race to be developed are coming to us by immigration in a volume greater than ever before. Of the immigration up to 1890, the vast preponderance was from the races of Northern Europe, but since that period a radical change in its character has taken place, and Southern and Eastern Europe are now the chief sources from which we are drawing foreign additions to our population. Meanwhile, the contributions of immigration to to the other race elements are diminishing greatly.

In the period from 1820 to 1880, out of a total immigration of about twenty millions, only 162,018 came from Italy and Austria-Hungary, but from 1880 to 1900 the aggregate from those countries was 1,905,634, and now the immigrants from these sources are by far the most numerous. In the year 1902 alone, 178,375 came from Italy and 179,989 from Austria-Hungary, and this immigration is greater in 1903.

The immigration from Germany, Ireland and the Scandinavian countries began to fall off heavily a few years before 1890, or simultaneously with the sudden increase in the Italian and Austro-Hungarian, and since then this diminution has increased steadily in its percentage. Last year, all told, it was only 105,-820, as compared with the 178,875 from Italy alone.

According to the census of 1900, the foreign-born population of the United States was 10,460,085, and the countries of its nativity were:

Austria	276,249
Bohemia	156,991
Canada	1,181,255
England	824,078
Germany	2,666,990
Hungary	145,802
Ireland	1,618,567
Italy	484,207
Poland	383,510
Russia	424,896
Scotland and Wales	327,659
Other countries	781,931

Since then both the Austro-Hungarian and Italian population must have been more than doubled by immigration alone, to say nothing of its large natural increase. In 1900, of the population born in this country, 26,198,939 had foreign parents, one or both, out of a tototal population of 76,603,387. Of the parents of these children, the principal race sources were:

German	7,832,681
Irish	4,981,074
English	4,335,356
Scandinavian	1,872,678
French	1,079,878
Austro-Hungarian	1,007,995
Italian	732,421
Polish	687,711
Russian	685,360

In this table we have classified with the English, the Scotch, Welsh and the Canadian English, and with the French the Canadian French.

It will be seen that up to the time of the census the racial elements of northern Europe were by far the largest; but the immigration since 1900 from southern and eastern Europe has increased greatly, so that it has formed and continues to form about four-fifths of the unprecedentedly large total immigration.

The future historian who shall set himself to the task of examining scientifically the American race, or "the blood of the nation," will have before him a chance to study the development of a composite race such as the history of the world had never before afforded. It will be a new race, a new development in the history of mankind.

The world has never produced a sturdier race of people, more vigorous in brain and brawn than the race which has made made this country what it is, people whose ancestors were schooled in the adventures and hardships of pioneer life, who led the way and taught their descendants how to push a wilderness before them across a continent. The people who did this were a composite race, but the elements were few and the blending was of congenial blood, the progeny of which was an improved type showing the stronger traits of the parent stock. The foreign kindred of these parent stocks might not be willing to admit this, but they all seem proud to recognize this progeny, and claim cousinship with it, so ready as to give ground for the belief that they feel honored by the connection.

This composite, the American of the past and of the present day, the man who carried civilization across the continent, made his impressions upon the world and to some extent revolutionized it, was the progeny of English, Irish, Scotch-German and French blending each sturdy, verile, progressive and assertive. There was little if any other mixture in him.

But how long will it be so? With the changed and changing character of the immigration, will there be mixture with these, and if so, will the elements be assimilable, or are we to have race peculiarities propagated and separate nationalities grow up in the Republic, being under the flag and in the country, but not of it and alien in feeling, as the Asiatics would if the gates had been thrown open to it? So far the bulk of these people have shown little disposition to mingle or assimilate with Americans or with other people, keeping aloof and maintaining their old habits, customs and language as tenaciously as the Chinese do. The influx from these nationalities is comparatively of such recent date that there has not yet been time to see what the new generation born upon this soil may be, whether they will be Americans in spirit or something else. That is what the future is to show, and on how it shows up will largely depend, if the present influx of immigration from these various countries continue, the strength and superioritiy of the American people as a nation.

A fact worthy of note in this connection is that this new immigration, as the old has been, is almost altogether to the Northern States, where it remains, which will make the South of the future still more conspicuously the section of the least mixture and the most genuinely American, which in the long run will be a good thing for the South, because it means less friction and fewer conflicting elements.

"THE SAME WILD RAGE."

A few days ago we published an extract from a Council Bluff, Iowa, paper, on some mob demonstrations in Nebraska against negroes, in which the editor went on to say that as far as race feeling goes, and the disposition to jump on the negro after provocation, Northern white men are as quick to do it as Southern white men are, and he might have added really quicker, and therefore there was no good reason for harshly criticising Southern white men for doing what they themselves did for the same or less cause.

Here is another extract substantially the same from the Chicago *Record-Herald*, a Republican paper, evoked by the lynching of a young negro for an assault on a white girl:

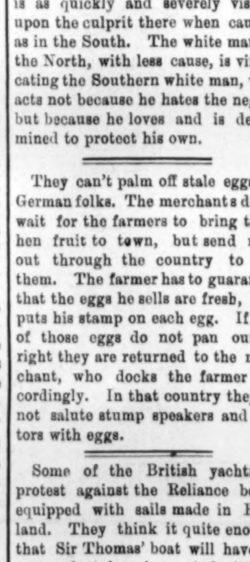

"These white men were the farmers of the neighborhood—men of a class as law-abiding as any in the nation. Yet they acted with the same wild rage and hatred that is so often charged against the South as its characteristic fault. The lesson is clearly that there exists no such divergence of moral character between the two sections of the country as many Northern cities seem to believe. Put Northern men in Southern conditions, and there is no reason to expect that they would be more moderate in their actions than are the Southerners."

When put to the test they find that there isn't really so much difference, after all, between the white man of the North and the white man of the South, and therefore editors who a short while ago wrote homilies on Southern "lawlessness" and scolded the Southern people for it have ceased writing homilies and scolding and are writing more to the point and with more sense.

But there is less excuse for lynch law in the North than in the South for the particular crime which is so quick to evoke it in both sections, for in the North there is not one negro to the thousand there are in the South, and hence the Northern woman who ventures from home unprotected is comparatively safe from danger; but the white man up there does not consider that, for vengeance is as quickly and severely visited upon the culprit there when caught as in the South. The white man of the North, with less cause, is vindicating the Southern white man, who acts not because he hates the negro, but because he loves and is determined to protect his own.

They can't palm off stale eggs on German folks. The merchants don't wait for the farmers to bring their hen fruit to town, but send men out through the country to get them. The farmer has to guarantee that the eggs he sells are fresh, and puts his stamp on each egg. If any of those eggs do not pan out all right they are returned to the merchant, who docks the farmer accordingly. In that country they do not salute stump speakers and actors with eggs.

Some of the British yachtmen protest against the Reliance being equipped with sails made in England. They think it quite enough that Sir Thomas' boat will have to run against American wind without throwing in British sails.

Future Looked Dark.

H. W. Bagg, the Wilmington Manufacturer, Saw Little in It But Pain

The following story is a personal narrative of an experience that seemed to promise the narrator nothing for the future but a life of pain and discomfort. How he found the way but is a story which will interest many Wilmington readers.

H. W. Bagg, merchant and furniture manufacturer, 2nd and Market Sts., residing at 114 North 6th St., says: "I used Doan's Kidney Pills and they proved to be a grand medicine, and I can also say that Doan's Ointment is the best remedy of the kind on the face of the earth. I suffered with my back for a long time. When I sat at my desk for a while and attempted to get up I would have to catch hold of the chair for support and straighten myself up gradually. The kidney secretions were dark colored and full of sediment. I read about Doan's Kidney Pills in our papers and went to R. R. Bellamy's drug store and got a box. Since using them my back is strong and I can move about and stand up as straight as ever and the kidney secretions have all cleared up. You may use my name as an endorser of the claims made for Doan's Kidney Pills and also Doan's Ointment, which I used with good results."

SUSPICIOUS OF MARCUS.

The boosters of Candidate Roosevelt profess to feel confident that he has a dead sure thing on the nomination by the next Republican national convention, but they are not altogether easy as to Senator Hanna, the only man whose name has been mentioned whose performances seem to cause them any concern, although they do not want to admit that they are afraid of him.

Washington correspondents of some of the Republican papers represent them as wondering what Hanna means by hobnobbing with the labor leaders, by making speeches in defence of organized labor and defending it against men like Mr. Parry, President of the Manufacturers' Association, his previous standing in with the negroes by introducing that ex-slave pension bill, &c.

They know, too, that as between Roosevelt and Hanna, the railroad combines, the trusts and the sober business men of the large cities would be behind Hanna if he were to declare himself a candidate or say that he would permit his name to be used in that connection. Aside from any particular offence that Roosevelt has given these classes, they regard him as mercurial, unreliable, impulsive, as a stage player for popularity—anything for popularity and to boost his candidacy, which was apparent before, but has become conspicuously so in his present swing round, in which Presidential dignity has been relegated in the effort to play to the crowd, all of which will cut no small figure when it comes to naming the man who is to be standard bearer of the party.

If Hanna should be in it he will give the Roosevelt supporters all the trouble they will care to buck up to. All he has to do is to say that "Barkis is willin'."

The old gentleman is now in his 95th year, but has been confined to his bed for four years. He bought the monument for himself, his first wife, and his present wife, who yet lives and is only about 40 years old. The old man says that he has caught wild horses in Stanly county in his youth, shot buffalo and killed deer innumerable at the big salt lick, now the city of Big Lick.

— Greensboro *Record*: A thief with originality visited the farm of Wilson Kinley, a mile or more from the city, Friday night and stole a fine two-year-old heifer. While it was plain that she had been stolen it was impossible to track her. Saturday morning a man met a negro with a heifer away out on Asheboro street. The animals feet were tied up with rags, because said the man, her feet had been made sore and he was carrying her to the country, but he added that he would sell her if any one wanted to buy. The party who met him reported the matter to the police. To-day it was ascertained that the thief drove the cow to Pleasant Garden and sold her to Chas. Kirkman.

— Kinston *Free Press*: Mr. W. F. Harper, of Contentnea Neck township, owns a cow which has been giving milk since February 15, 1892. She started with a production of 2½ gallons of milk per day, and now yields one gallon per day. This cow is a perpetual milker, and was a fine investment. Mr. Harper paid $10.70 for her, sold her calf for $10, and has had milk from her every day for over 11 years. Putting the average at 2 gallons of milk per day, the cow has yielded 8,030 gallons of milk during the 11 years and estimating the value of the milk at 20 cents per gallon, which is easily obtained for lacteal fluid in this section, we have $1,606. Deducting $3 a month for the cow's support, or $396 for the 11 years, the cow has $1,210 to her credit, besides $10 obtained for the single calf of this remarkable cow. This beats the most intensive farming.

ECZEMA

Psoriasis, Scalled Head, Milk Crust, Tetter, Ringworm, etc.

Speedily, Permanently and Economically Cured, when All Else Fails, by

Cuticura

The agonizing, itching, and burning of the skin, as in eczema; the frightful scaling, as in psoriasis; the loss of hair, and crusting of the scalp, as in scalled head; the facial disfigurements, as in pimples and ringworm; the awful suffering of infants, and anxiety of worn-out parents, as in milk crust, tetter and salt rheum,—all demand a remedy of almost superhuman virtues to successfully cope with them. That Cuticura Soap, Ointment, and Resolvent are such stands proven beyond all doubt. No statement is made regarding them that is not justified by the strongest evidence. The purity and sweetness, the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety and great economy have made them the standard skin cures, blood purifiers and humour remedies of the civilized world.

Complete External and Internal Treatment

Bathe the affected parts with hot water and Cuticura Soap, to cleanse the surface of crusts and scales, and soften the thickened cuticle. Dry, without hard rubbing, and apply Cuticura Ointment freely, to allay itching, irritation, and inflammation, and soothe and heal, and, lastly, take Cuticura Resolvent to cool and cleanse the blood. This complete treatment affords instant relief, permits rest and sleep in the severest forms of eczema and other itching, burning, and scaly humours of the skin, scalp and blood, and points to a speedy, permanent and economical cure when all other remedies and the best physicians fail. As evidence of the wonderful curative properties of Cuticura Remedies and of their world-wide sale, we quote from

The Hon. Mr. Justice Finnemore's Letter.

"I desire to give my voluntary testimony to the beneficial effects of your Cuticura Remedies. I have suffered for some time from an excess of uric acid in the blood; and since the middle of last year, from a severe attack of Eczema, chiefly on the scalp, face, ears and neck, and on one limb. I was for several months under professional treatment, but the remedies prescribed were of no avail, and I was gradually becoming worse, my face was dreadfully disfigured, and I lost nearly all my hair. At last, my wife prevailed upon me to try the Cuticura Remedies, and I gave them a thorough trial with the most satisfactory results. The disease soon began to dissappear, and my hair commenced to grow again. A fresh growth of hair is covering my head, and my limb (although not yet quite cured) is gradually improving. My wife thinks so highly of your remedies that she has been purchasing them in order to make presents to other persons suffering from similar complaints, and, as President of the Bible Women's Society, has told the Bible women to report if any case should come under her notice when a poor person is so afflicted, so that your remedies may be resorted to."

COTTON MARKETS

By Telegraph to the Morning Star

NEW YORK, May 6.—The cotton market opened steady at an advance of one to three points on the near months and one point higher to two points lower on the more distant positions. Following the call the market ruled very irregular, the old crop months showing pronounced strength under further covering of shorts which drove May up to another new high level for the season. The best prices were recorded just before the close when May sold at 10.77 against yesterday's high point of 10 68. The advance in the spring and summer options was due to a further show of strength on the part of the bulls and the developments in the July option at New Orleans, which was generally attributed to the strong spot situation there. The Liverpool markets being about as expected exerted little influence. At intervals through the day there were brief and upward sessions, but the opening proved the lowest on the near months and the close was within one point of the highest on May and July and within three points on August. The new crop months being more easily influenced by the weather reports and the movement were relatively weak. After the opening they still further declined under the favorable weather reports and port receipts reaching over 10,000 bales as compared with 9,503 bales last year. September sold some 10 points from the opening with the other late months ranging from one to four points lower. The general covering just before the close brought about a slight recovery however, and the market as a whole was finally steady nine points higher to three points lower. Total sales futures estimated at 125,000 bales.

NEW YORK May 6.—May cotton sold to-day at 10.70. Yesterday's highest point was 10.68. May cotton continues to advance and at 11:30 o'clock was quoted at 10.75. In the afternoon May cotton sold between 10.70@10.75 until just before the close when there was a sale at 10.77.

Rheumacide

Is a new and scientific compound made from roots, herbs and barks—contains neither opiates nor poisons. It purifies the blood and removes the cause of rheumatism and all blood diseases. Anyone can take RHEUMACIDE with absolute safety. Does not injure the digestive organs.

TWO CURES.

FLORENCE, S. C., Aug. 16, 1902.

Gentlemen:—I began to suffer from rheumatism about three years ago, and had it very bad in my limbs. At times I could hardly walk. Was treated by a physician without benefit. More than a year ago, Mr. George Wilson, an engineer on the Coast Line, living in Florence, told me that "RHEUMACIDE" cured him. I got a bottle and it benefitted me. I took five bottles and am now as well as I ever was in my life. I regard "RHEUMACIDE" as a great medicine. I know of others it has cured.

Truly,
S. T. BURCH.

DARLINGTON, S. C., Aug. 19th, 1902.

Gentlemen:—About two years ago I had a very severe attack of inflammatory rheumatism. I suffered great pain and was confined to my bed for five weeks. During the time I was treated by two Physicians without permanent relief. Capt. Harker, a conductor on the Atlantic Coast Line heard of my condition and sent me two bottles of "RHEUMACIDE." I began to take it and in a week I got up and walked on crutches. After taking three bottles of the remedy I got entirely well and went back to my business.

I personally know of a number of other bad cases that were cured by the use of your medicine, in this town and vicinity. It is all that you claim for it.

Truly, J. L. SISKRON.

Costs Only 25 cents at Druggists,

FLORENCE, S. C., Nov. 26, 1900.—I was first advised by our family physician in Charleston to use TEETHINA with our baby when he was but a very young infant, as a preventive of colic and to warm and sweeten the stomach. Later it was useful in teething troubles, and its effect has been found to be so very beneficial and so free from dangers that are consequent upon the use of drugs and soothing syrups, that we have come to regard it, after use with three children, as one of the necessities when there is a new baby in the house and until the teething troubles are over, and we take pleasure in recommending it to our friends instead of the horrid stuff that so many people use to keep their baby quiet. A HEROIC TRIO.

Travis, Crockett and Bowie and a Neglected American Epic.

The late Frank Norris in an article in World's Work says that the American epic, which on the shelves of posterity should have stood shoulder to shoulder with the "Hemskringla" and the "Tales of the Nibelungen" and the "Song of Roland," will never be written because the Hector of an ignored "Iliad" has been forgotten. "One of the requirements of an epic—a true epic—is that its action must devolve upon some great national event. There was no lack of such in those fierce years after forty-nine. Just that long and terrible journey from the Mississippi to the ocean is an epic in itself. Yet no serious attempt has ever been made by an American author to render into prose or verse this event in our history as 'national' in scope, in origin and in results as the Revolution itself. The prairie schooner is as large a figure in the legends as the black ship that bore Ulysses homeward from Troy. The sea meant as much to the Argonauts of the fifties as it did to the ten thousand.

"And the Alamo! There is a trumpet call in the word, and only the look of it on the printed page is a flash of fire, but the very histories slight the deed, and to many an American born under the same flag that the Mexican rifles shot to ribbons on that splendid day the word is meaningless. Yet Thermopylæ was less glorious, and in comparison with that siege the investment of Troy was mere wanton riot. At the very least the Texans in that battered adobe church fought for the honor of their flag and the greater glory of their country, not for loot or the possession of the person of an adulteress. Young men are taught to consider the "Iliad," with its butcheries, its glorification of inordinate selfishness and vanity, as a classic. Achilles—murderer, egotist, ruffian and liar—is a hero. But the name of Bowie, the name of the man who gave his life to his flag at the Alamo, is perpetuated only in the designation of a knife. Crockett is the hero only of a 'funny story' about a sagacious coon, while Travis, the boy commander who did what Gordon with an empire back of him failed to do, is quietly and definitely ignored. He died in defense of an ideal, an epic hero, a legendary figure, formidable, sad. He died facing down injustice, dishonesty and crime; died 'in his boots,' and the same world that has glorified Achilles and frgotten Travis finds none so poor to do him reverence."

FORT BLUNDER.

How It Was That Uncle Sam Built It on British Soil.

Curious indeed is an American fort which was built on British soil. How many can guess what fort it is and where located? The name is Fort Montgomery, and the location is on an island near the foot of Lake Champlain, about half a mile northeast of Rouse's Point, N. Y.

A short time ago, when traveling in that part of the country, I saw this fort and asked the name of it. "Why, that is Fort Blunder," said my informant. "Did you never hear of it?" I confessed ignorance, and he explained matters.

It seems that after the war of 1812 the government of the United States became convinced that the entrance to Lake Champlain should be guarded by a fort strong enough to engage any British fleet which might attempt to force an entrance to the lake, and so Fort Montgomery was constructed at a cost of nearly $500,000. It was an immense fortification for those days and was arranged for three tiers of guns.

Just about the time it was completed the joint surveyors fixing the line between the United States and Canada came along and, after doing a good bit of figuring, announced that Fort Montgomery was on Canadian soil. The northern boundary of New York state was the forty-fifth parallel, and this fort was several hundred yards over the line. Work on the fort came to an immediate standstill, and the matter was made the subject of a special treaty.

It was decided that in view of the fact that the United States had not intentionally encroached on Canadian soil the forty-fifth parallel should be bent a little out of its course at this point so as to include the fort. That is why the fort is called "Fort Blunder." It was never armed and has never been occupied by more than one or two men.—New York Herald.

An Emperor's Strange Fancy.

Strange fancies have taken hold of some men regarding the manner in which their bodies were to be disposed of after death and the ceremonies to be observed at their funerals.

The great Emperor Charles V. had the curious idea of celebrating his own funeral. Shortly before his death he caused a tomb to be made in the chapel of the monastery of Estremadura, to which he had retired after his abdication, and on its completion he was carried to it as though dead. Placed in a coffin and accompanied by a procession, he was borne along, while chants were sung, prayers said and tears shed. After the solemn farce was over he was left alone in the chapel, where he remained a short time before rising out of the coffin.

Too Good Highlanders.

Some years ago a vote was taken among the men of a certain highland regiment (at that time not wearing the kilt) to find out how many would be in favor of wearing the highland costume.

In due time the sergeant major appeared before the commanding officer with the result of the voting.

C. O.—Well, sergeant major, how many are in favor of the kilt?

S. M.—Two men, sir.

C. O.—Only two. Well, I'm glad there are at least two good highlanders in the regiment. What are their names, sergeant major?

S. M.—Privates Patrick O'Brien and Michael Rooney, sir.—Scottish American.

RUNNING TO A FIRE.

How the Horses Enjoy the Mad Dash Through the Streets.

Every one who has watched fire horses dashing through the streets in answer to an alarm will admit that the animals seem to enjoy the run. This idea is brought out by Sewell Ford in "Horses Nine," as follows:

For Silver all other minor pleasures in life were as nothing to the fierce joy he knew when, with a dozen men clinging to the handrails, the captain pulling the bellrope and Lannigan, far up above them all, swaying on the lines, the Gray Horse truck swept up Broadway to a first call box.

It was like trotting to music if you've ever done that. Possibly you could have discovered no harmony at all in the confused roar of the apparatus as it thundered past. But to the ears of Silver there were many sounds blended into one. There were the rhythmical beat of hoofs, the low undertone of the wheels grinding the pavement, the high note of the forged steel lock opener as it hammered the footboard, the mellow dingdong of the bell, the creak of the forty and fifty foot extensions, the rattle of the iron shod hooks, the rat-tat-tat of the scaling ladders on the bridge and the muffled drumming of the leather helmets as they jumped in the basket.

With the increasing speed all these sounds rose in pitch until, when the team was at full swing, they became one vibrant theme—thrilling, inspiring, exultant—the action song of the truck.

A Sure Thing.

It is said that nothing is sure except death and taxes, but that is not altogether true. Dr. King's New Discovery for Consumption is a sure cure for all Lung and Throat troubles. Thousands can testify to that. Mrs. C. B. Vanmetre, of Shepherdtown, W. Va., says: "I had a severe case of Bronchitis, and for a year tried everything I heard of, but got no relief. One bottle of Dr. King's New Discovery then cured me absolutely." It's infallible for Croup, Whooping Cough, Grip, Pneumonia and Consumption. Try it. It's guaranteed by R. R. BELLAMY, druggist. THURSDAY MORNING, MAY 7.

TURKS INCENSED AGAINST BULGARIA.

The Porte Holds It Responsible for Outrages by Macedonian Agitators. Disturbances at Salonica.

By Cable to the Morning Star.

CONSTANTINOPLE, May 6.—The irritation in Turkish official circles against Bulgaria is constantly growing more acute and the government of that principality has been formally notified in rigorous language that the Porte holds it responsible for the outrages arising from the freedom of action which the Macedonian agitators living in Bulgaria have been allowed.

It is reported that the Porte has decided to mobilize the whole of the second and third army corps stationed at Adrianople and Salonica, respectively.

The police of Constantinople have arrested sixty Bulgarians and have made numerous domiciliary visits, including one to the residence of the secretary of the Bulgarian diplomacy agency, whose papers were seized. They were, however, subsequently restored, as nothing compromising was discovered therein.

VIENNA, May 6.—Advices received here from Salonica say that notwithstanding the fact that hundreds of Bulgarians have been arrested, street fights are constantly taking place. Women and children, especially young girls, take prominent part in these disturbances.

It is asserted that bomb outrages have been planned in all the towns of Macedonia.

Bombs have been discovered in houses at Uskub, European Turkey, where the Turkish population is greatly excited, fearing a massacre.

SALONICA, May 6.—An engagement is reported to have occurred at the village of Vanliza, between Turkish troops and a Bulgarian band, in which sixty Bulgarians, including their leader, Deltzeff, were killed, while the Turks had four men killed and three wounded, Thirty houses in Vanliza were burned.

The Bulgarian band, led by Petroff, has been routed at Krapestaza. Seven of the Bulgarians were killed. A number of dynamite bombs were captured here and martial law was proclaimed in Salonica yesterday.

THE MEDICAL ASSOCIATION.

Reports and Resolutions--Too Many Patent Medicines--Southern Medical Colleges Association Elected Officers.

By Telegraph to the Morning Star.

NEW ORLEANS, May 6.—Sectional meetings kept the delegates to the American Medical Association busy to-day. There were seven meetings in the forenoon and a dozen in the afternoon. Dr. Adolph Lorenz was a conspicuous figure at the section of surgery and anatomy. He was immediately recognized upon entering the hall and introduced from the chair by Chairman Moore. He was cordially applauded and briefly expressed his acknowledgements. Dr. Lorenz says he is simply here as a visitor, with no desire to appear as a participant.

Resolutions were passed by the hygeine and science department, impressing physicians throughout the country, with the necessity of co-operating with the census bureau in recording vital statistics and improving the method of determining the cause of death.

At a meeting of the section of materia medica, pharmacy and therapeutics, over which Dr. Solomon Solid-Cohn presided, Dr. Robinson read a report declaring "that there were too many patent medicines," and proposing an act of Congress to limit the sale of poisonous and dangerous patent medicines.

The Southern Medical Colleges Association has elected Dr. Christopher Tompkins, of Richmond, president, and Dr. G. C. Savage, of Nashville, secretary-treasurer, and selected Birmingham for its next place of meeting.

FOREIGN EXCHANGE.

Demand Sterling Selling in New York at the Highest Figure in Months.

By Telegraph to the Morning Star.

NEW YORK, May 6.—Foreign exchange is very firm; demand sterling selling as high as 488.10, the highest figure in many months. Later in the day it was offered at 488.25. The primary reason for the strength of the market was the belief that the new South African loan will be opened for subscription in London to-morrow. As many American banking houses are likely to participate in this loan, there was heavy buying of exchange for cables remittance. It is thought that the loan will be largely oversubscribed and as a result American financial interests have doubtless asked for allotments considerably larger than they are likely to receive.

HYMELIA CREVASSE.

Attempt to Mend the Broken Levee Has Finally Been Abandoned.

By Telegraph to the Morning Star.

NEW ORLEANS, May 6.—Work on the Hymelia crevasse, 35 miles above the city, which has been running for several weeks, has finally been abandoned. No further attempt will be made to mend the broken levee until the river is again within its banks. Over $150,000 has been expended in the effort to close the crevasse. While the effort has not succehded, the proportions of the break have been so much reduced as materially to curtail the damage done.

The three-masted schooner Agnes E. Manson, of New Haven, struck on the shoals east of Nantucket, Mass., and sank shortly afterwards. The captain and his wife and crew of nine escaped.

Quick Arrest.

J. A. Gulledge, of Verbena, Ala., was twice in the hospital from a severe case of piles, causing twenty-four tumors. After doctors and all remedies failed, Bucklen's Arnica Salve quickly arrested further inflammation and cured him. It conquers aches and kills pain. Only 25c, at R. R. BELLAMY'S drug store.

THE CLYDE LINE STEAMER SAGINAW

Value of Vessel and Cargo Estimated at Two Hundred and Fifty Thousand Dollars.

DAMAGE TO HAMILTON $10,000

Clyde Line Officials Will Make No Statement Until Captain Tunnell is Able to Give His Account of the Disaster--Is Severely Injured.

By Telegraph to the Morning Star

PHILADELPHIA, May 6.—Captain James S. Tunnell, of the Clyde Line steamer Saginaw, which was sunk yesterday by the steamer Hamilton of the Old Dominion Line, off the Virginia coast, was brought here to-day from Norfolk. He was accompanied by Chief Engineer J. N. Selzer, Assistant Engineer Murray and Second Mate W. I. Morris. Captain Tunnell is severely injured. Two of his ribs are fractured and his head is badly lacerated. He is also internally injured and suffers greatly from shock. He was removed to his home. Chief Engineer Selzer reported at the office of the company but the officials say they will have no statement to make until Captain Tunnell is able to give an official account of the disaster.

NORFOLK, VA., May 6.—It came to light to-day that among the passengers on the steamer Hamilton at the time of the disaster early yesterday morning was Miss Schley, daughter of Rear Admiral Schley of the navy, who with other women passengers on the Hamilton, assisted by the steamer's stewardess, raised $95 in cash which was distributed among the most of the Saginaw's survivors. No advices have been received here from the scene of the collision since yesterday. The hydrographic office has charted the Saginaw as a dangerous obstacle in the path of coastwise shipping.

It is learned that the cargo of the Saginaw while not complete, was very valuable. It consisted of naval stores, turpentine, rosin, tobacco, domestic sheeting and yarns from factories hereabouts and similar freight. Its exact value is not known, but one hundred thousand dollars is mentioned. The value of the Saginaw is said by experts to have probably been about $150,000.

Local mechanics this morning began to patch the holes made in the Hamilton's bow when she cut into the stern of the Saginaw. Heavy iron plates were riveted over those torn away. The damage was about $10,000.

A thorough inquiry will be made into the collision. The supervising inspector for the third district is Capt. John W. Oast, who has his headquarters here. His district extends from New Jersey to Porto Rico. The collision having occurred in his district, it is probable that the investigation will be held here.

BRITISH MONROE DOCTRINE.

Powers Notified That Attempt to Establish a Naval Base in Persian Gulf Means War With Great Britain.

By Cable to the Morning Star.

LONDON, May 6.—Foreign Secretary Lansdowne has proclaimed a British Monroe doctrine in the Persian Gulf, and has practically notified the competing powers that any attempt on their part to establish a naval base or fortified post in those waters means war with great Britain.

"I say without hesitation," said the foreign secretary, dealing with the subject in the House of Lords yesterday, "that we should regard the establishment of a naval base or a fortified port in the Persian Gulf by any other power as a very grave menace to British interests, and we should certainly resist it with all the means at our disposal."

Lord Lansdowne preceded this explicit enunciation of British policy by a review of the situation there, as it affected British interests, contending that so far as the navigation of the Persian Gulf was concerned, Great Britain held a position different to that of the other Powers, both because it was owing to British enterprise and expenditure of life and money that the gulf was now open to the commerce of the world, and because of the protection of the sea route to India.

Lord Lansdowne's attitude in this matter generally meets with approval, although the answers thereto from the other powers interested in the gulf are awaited with some anxiety.

THE BAPTIST CONVENTION.

Delegates Arriving at Savannah, Ga. Two Thousand Expected—Address of Welcome by the Governor.

By Telegraph to the Morning Star.

SAVANNAH, GA., May 6.—During the day more than 500 delegates to the Southern Baptist Convention and Baptist Young People's Union arrived. By to-morrow night it is expected that 2,000 delegates, representing fourteen States, two territories and the District of Columbia will be on hand.

Among the prominent arrivals today was Rev. J. W. Millard, of Baltimore, president of the Alumni Association of the Southern Theological Seminary, which organization holds a reunion and banquet to-morrow night, with speakers from six States. A meeting of the trustees of the Seminary will be held in the morning. The regular sessions of the B. Y. P. U. will begin at 10 A. M. Thursday.

The formal address of welcome to the Southern Baptist convention will be delivered by Governor Terrell, of Georgia, on Friday. A great temporary tabernacle has been erected in the park extension for the accommodation of the night meetings of the convention. Morning and afternoon sessions and committee meetings will be held in the various church auditoriums. Among the important questions to come before the convention will be that of changing the base of representation to a per capita standard.

SHOOTING AT NEWTON.

Negro Who Attacked White Man With an Axe Shot and Killed.

By Telegraph to the Morning Star.

RALEIGH, N. C., May 6.—A special from Newton, N. C., says:

Dr. W. S. Davidson had an altercation with a negro named Dan McKinney about the doctor's horse, when, according to the physician's statement, the negro seized an axe and attacked him. The doctor whipped out his pistol and fired twice, killing the negro instantly. Davidson then gave himself up.

OPPOSITION TO THE PANAMA CANAL TREATY.

Developed Among Members of Colombian Congress—President Marroquin May Carry Out the Negotiations

By Telegraph to the Morning Star.

WASHINGTON, May 6.—The latest advices received here indicate that President Marroquin, of Colombia, has almost decided not to call a special session of the Colombian Congress, to act upon the Panama canal treaty. When the call was issued for an election of the members of the Colombian Congress it was the intention to call a special session about the 11th instant, the call naming the Panama treaty as the first subject to be considered; financial measures to follow. But the opposition developed to the treaty has been more pronounced than the President supposed, and he has thus far refrained from naming the day of meeting, hoping that as the election progressed the government would be reasonably sure of a majority to carry out its programme. But the opposition continues to gain and the prospects for a government majority are so doubtful that President Marroquin now seems indisposed to act. In that event, the Colombian Congress would under the constitution assemble July 20th in regular session. At that session it might take up the canal treaty but much doubt is felt here as to whether or not the treaty would be taken up at all.

This outlook, however, does not discourage the officials who had to do with the making of the treaty. The United States government has gone so far in its negotiations with Colombia that confidence is felt here that President Marroquin will feel himself bound to carry out the engagements into which he has entered. The Colombian constitution contains some peculiar paragraphs enlarging the powers of the executive in case of disturbed conditions beyond any degree known in the United States, and if there is the slightest sign of forcible opposition to the government or of revolutionary uprisings, such as have been hinted at in the stories from Kingston, Jamaica, and from Isthmian points, indicative of a purpose to sever the isthmus from Colombian sovereignty, the president may arrogate to himself dictatorial power and himself go to the length of ratifying the canal treaty with the United States. If he does so, the United States government will sustain the title thus acquired.

INVESTIGATION OF POSTOFFICE SCANDALS.

The Overhauling of Most of the Large Offices in the Country Contemplated. The Tyner Case Dropped.

By Telegraph to the Morning Star

WASHINGTON, May 6.—A far-reaching extension of the present investigation of the affairs of the Postoffice Department to include the overhauling of most of the large postoffices in the country is in contemplation. This statement was made by Postmaster General Payne. Mr. Payne said that the increase by $5,000 of the appropriation for the contingent expenses of his own office had been made for the purpose of investigating the affairs of the department along these lines, but he admitted that it was not at that time anticipated that the investigation would prove sensational. The details of the proposed general investigation he said have not yet been formulated, owing to the fact that all efforts are being concentrated on the investigation now in hand. It will cover all first-class postoffices whose annual receipts aggregate a half million dollars. Mr. Payne said to-day that the present administrative methods of the postal service were put in operation by former Postmaster General Wannamaker, fourteen years ago, and since then the business of the department had trebled. He said that it might be that some of the methods were faulty and the practices irregular, and that the investigation would be made in the hope of initiating new and better methods as well as correcting abuses.

The abstraction of papers from the safe of the office of the assistant attorney general for the Postoffice Department by Mrs. James N. Tyner, wife of the then assistant attorney general, is now regarded as practically a closed incident. The papers were taken on April 21st and the case was referred to the United States attorney for the District of Columbia a week later. The matter has not progressed further. It has not been presented to the grand jury and it is generally believed that the grand jury would not be likely to take action because of lack of proof that the papers taken were government property.

ROOSEVELT IN ARIZONA.

Warm Welcome to President—Made Brief Address at Grand Canyon and Presented Diplomas to Graduates

By Telegraph to the Morning Star.

GRAND CANYON, ARIZONA, May 6.—Arizona welcomed President Roosevelt here to-day and the welcome it gave him was a warm one. A special train from Flagstaff brought a large crowd and people also came in from the surrounding country on horseback and in wagons. The President's train arrived here at 9 o'clock this morning and until it left at 6 o'clock in the evening he was constantly on the go. Horses were in waiting at the station as the train pulled in and after the President had greeted a number of members of his old regiment, he mounted and took a twelve-mile ride. Then he returned to the hotel, where he made a brief address to the people and presented diplomas to the graduates of the Flagstaff school.

"It was from Arizona," said the President in opening his address, that so many gallant men came into the regiment that he had the honor to command. Arizona sent men who won glory on hard fought fields and men to whom came a glorious and an honorable death, fighting for the flag of their country. As long as I live, it will be to me an inspiration to have served with Bunk O'Neal. The President also paid a compliment to Governor Brodie, who was a member of his regiment and who introduced him to the audience.

The President extended a word of greeting to the Indians, a number of whom were in the crowd. Some of them were in my regiment, he said. They were good enough to fight and die and they are good enough for me to treat as squarely as any white man. There are a great many problems in connection with them. You have got to save them from corruption, from brutality, and I regret to say at times we have to save them from certain Eastern philanthropy.

At the conclusion of his remarks the President rode out to a liner's camp, about fifteen miles from here, where he had luncheon. At 6 o'clock his train left for California.

REIGN OF TERROR IN BREATHITT CO.

Several Families Preparing to Abandon Their Homes and Leave the Country.

FEARS OF A FEUD FIGHT.

arcum's Friends Believed to be Uniting Against the Cockrell Family With a View of Precipitating a Conflict. Governor Appealed To

By Telegraph to the Morning Star

LEXINGTON, KY., May 6.—A messenger who left the interior of Breathitt county at dawn Monday to bear a warning to Attorney J. B. Marcum that a plot to kill him had been formed the night before, reached Jackson a few minutes after an assassin's bullet had crashed through Marcum's brain and heart, as he stood in the court house door. During Sunday night Edward Strong, a friend of Marcum, was informed that a conspiracy had been entered into at a meeting of several desperate men at a "blind tiger" three miles from Jackson, to assassinate Marcum Monday. At daylight he sent a messenger to convey the information to the attorney who lay dead when he arrived. This statement was made by Mrs. Marcum in an interview to-day. If the meeting at the "blind tiger" Sunday night, told of by the widow, can be proved, the assassin and the plotters may yet be known.

An investigation must be strictly within legal bounds, and it may be impossible even then to make the people feel secure in telling what they know.

A newspaper man who arrived from Jackson to-night described the situation there by saying:

"The town may be compared only to a man sitting on a barrel of powder in a shower of sparks. When the explosion will come no one knows, but I believe it is inevitable. At least three men know who assassinated James Marcum, and though they are silent it is believed their fate is sealed. Such knowledge in Breathitt means death or exile. There are also others yet who know who assassinated Jim Cockrell. They will not be overlooked. If these people remain or there is the possibility of a rigid investigation by the law, I believe that they will be put out of the way at an early day. Several families are preparing to follow the example of more than fifty people who during the last six months have fled the county. Male members will leave immediately, and when they have found a home the women and children will follow."

A dispatch from Jackson, Ky., says that the people not involved in the feud, contemplate calling on Governor Beckham to bring peace to Breathitt county. It is expected that the contingent with which Marcum was allied, which includes the influential family of Postmaster Hurst, Marcum's father-in-law, are uniting against the Cockrell family, with a view of precipitating a fight. Conservative citizens who are acquainted with either family do not express surprise at the report.

Reward Offered.

FRANKFORT, KY., May 6.—Governor Beckham this afternoon at the request of the county judge of Breathitt county, offered $500 reward for the apprehension and conviction of the unknown assassin of J. B. Marcum. This is the highest reward permitted by law.

By Telegraph to the Morning Star

NEW YORK, May 6.—Without apparent warning a general shut-down took place to-day in the yards of the building material dealers and the lumber dealers all over Greater New York and its vicinity, as a culmination of the demands of the building material drivers' union and the material handlers' union. The brick manufacturers had decided to co-operate with the building material dealers and lumber dealers and will get out very little brick until the present trouble is settled.

Best Authorities in Medicine Declare It the Only True Spring Remedy.

The happy change from ill-health and misery, to true womanhood and happiness, can only be effected by the use of Paine's Celery Compound.

The present spring demand for Paine's Celery Compound, woman's friend and life giver, is enormous in every State of the Union. This fact alone, amply proves that the great Compound possesses virtues and powers unknown to other remedies. Dear wife and mother, do not procrastinate; listen to day to the voice of reason, and the pleadings and testimony of the thousands of your sex who have been made well and strong. Mrs. Jennie Harris, Marlow, Indian. Ter., joyfully writes about the medicine that makes women well; she says:—

"I have used one bottle of Paine's Celery Compound, and am satisfied that one bottle of this medicine has done me more real good than any other medicine that I have ever taken. I had rheumatism of long standing, kidney disease and female troubles, but since taking Paine's Celery Compound I feel altogether a different person. I have used lots of othor medicines, but never received any benefit until I used Paine's Celery Compound."

YOUNG WOMAN MURDERED.

Shot by a Burglar While Attempting to Shield Her Father.

By Telegraph to the Morning Star.

MEDFORD, MASS., May 7.—Miss Nellie Sturtevant, aged 25, daughter of Treasurer James S. Sturtevant, of the Medford County Operative Bank, was shot and killed at her home late last night by an unknown man who attempted to rob her father as he was returning from a bank meeting with a satchel filled with checks and money. The assassin then jumped upon his bicycle and escaped. An Italian who answered the description of the murderer was arrested two hours later on suspicion.

As Mr. Sturtevant stepped upon the piazza of his house his wife and daughter opened the door and a few words of greeting passed between them. At that moment a rough looking stranger appeared around the end of the piazza, and a revolver in hand, ordered Mr. Sturtevant to throw up his hands. The order was not obeyed and Miss Sturtevant stepped in front of her father to shield him from harm just as the intruder fired, the bullet entering her body with fatal result.
